GED & Me™

The Official GED® Mobile App

GED success in the palm of your hand

Learners can get personalized guidance directly from the makers of the GED to help prep for and pass the GED test. With the GED & Me app learners can set goals, track study time and work on creating healthy study habits to help achieve their GED credential.

The GED & Me app features were designed with an individual learner in mind -- someone who may not be in a classroom setting but can benefit from structure and motivational reminders.

- Goal setting for a personalized path and encouragement to stay on track
- Guidance and support on what to expect along the GED journey
- Hundreds of free practice questions with answer explanations
- Ability to connect a textbook to identify the most important sections to study
- Guidance on when to take a GED Ready practice test
- Ability to schedule the official GED test and receive reminder notifications
- Plus, direction on what to do next after earning the GED credential!

Users can take the app for a test drive before setting up a student account. Or, they can simply login to the app with the same email address as their GED.com account and the two will be linked.

Get GED & Me in the Apple App Store.

Android version coming soon!
