# Challenges & Solutions to Testing and Instruction Delivery in Correctional Facilities

Jonna Forsyth  
Mellissa Hultstrand  
Clay Mixon & Devin Broome  
Rafa Diaz

# What we're working on and exploring for Corrections

## Situation – transitioning to the new normal

- Cohorts or smaller groupings causing scheduling, availability of testing seats, and volume disruptions on both the prep and testing side
- Staffing shortages and/or upskilling challenges within DOC IT departments
- Two VUE updates within the past year

## Exploring, Developing, Solutioning:

- GED Ready Offline –updated test forms
- Chromebook test delivery (specific models) – testing is in progress and pilot is expected to begin later this year
- Atlo partnership – completed
- Client Proctored – in research phase
- Cloud-based test delivery solution - completed

## How GED Ready Offline Works

A file is downloaded from GED Testing Service that is placed on a jump drive and walked to non-Internet testing computers. You will have 60-days to move from jump drive to testing computers. The software has 3 primary purposes:

- To register the testing computers
- To allocate tests to the testing computers through a Control Center/internet-based computer
- To launch GED Ready on testing computers

Same-day  
scoring

Half the  
length of the  
operational  
test

Each test  
takes 45 - 75  
minutes to  
complete

Available in  
English and  
Spanish

Give your students the  
only practice test  
designed to assess how  
they will do on the 2014  
GED® test.

No internet access  
needed to take the test.

No Test Center  
scheduling required.

Test scores available  
immediately after  
completing an exam.

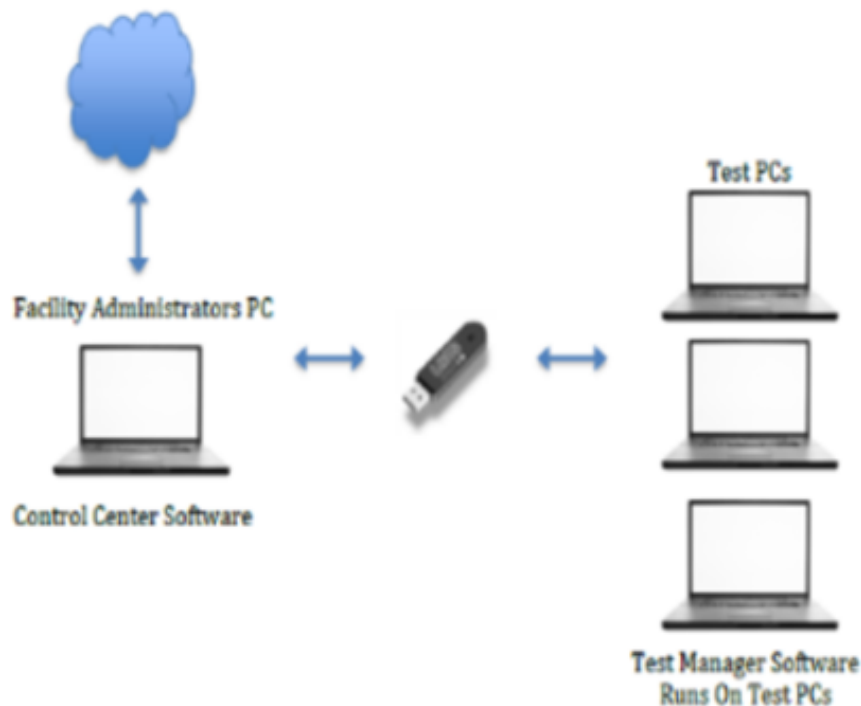

Focused feedback on  
testing skills needing  
improvement.

# How GED Ready Offline Works

## HOW IT WORKS

- A file is downloaded from GED Testing Service that is placed on a jump drive and walked to non-Internet testing computers. You will have 60-days to move from jump drive to testing computers.
  - The software has 3 primary purposes:
    - To register the testing computers
    - To allocate tests to the testing computers through a Control Center/internet-based computer
    - To launch GED Ready on testing computers

# Chromebooks

Exploring the possibility of using Chromebooks for test delivery in the correctional setting:

- We are looking at specific models
- Research and testing is taking place
- Hoping to pilot soon

# CCT for DOC

## Overview Cloud Control Technology

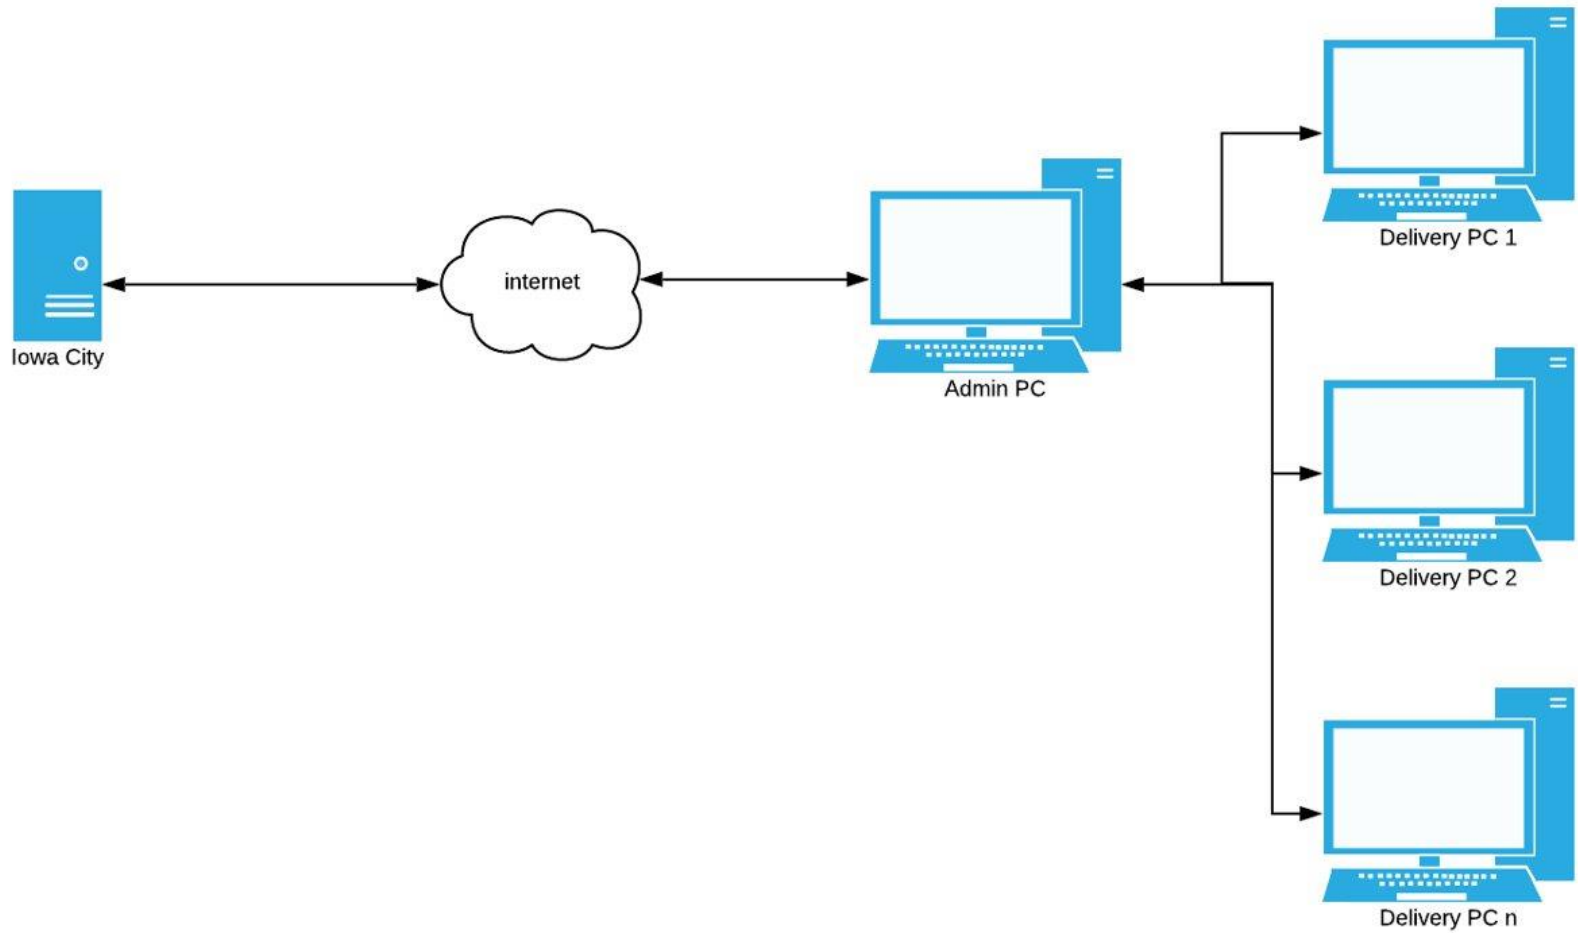

# What is CCT

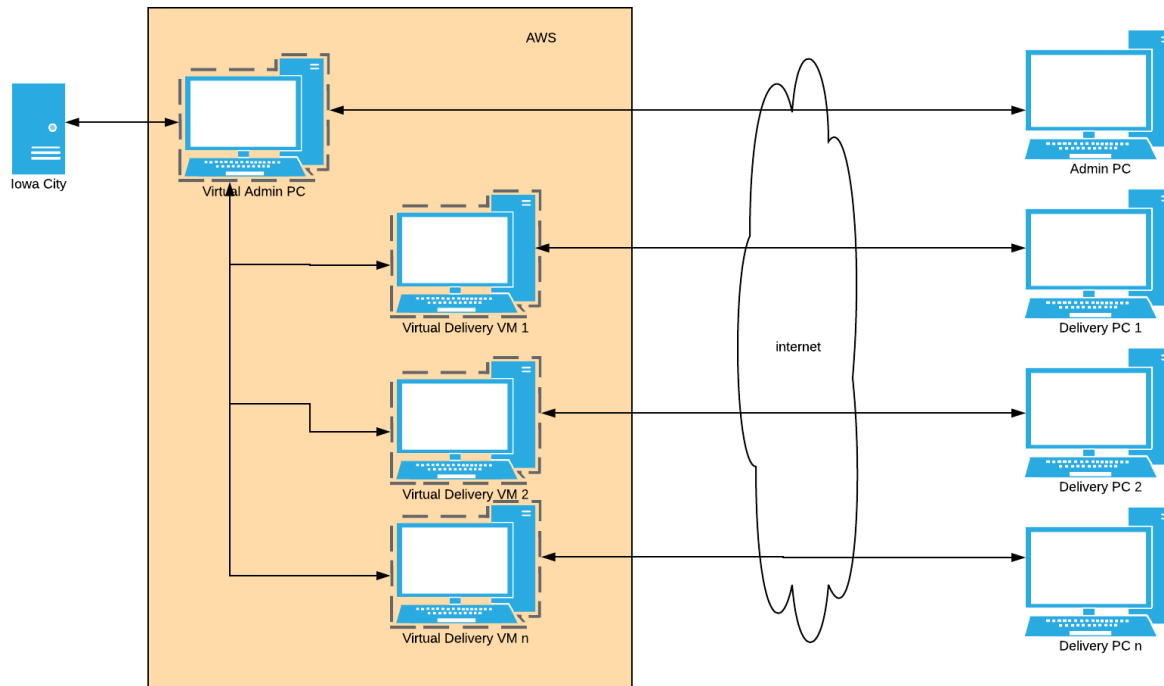

## Cloud Control Technology

# Typical Test Center

# Virtualized VTS software

# What: in a nutshell

- Virtualization of a VTS site in a controlled environment
- Client (I.e. DOC IT) replaces VTS software setup with a simpler-to-manage client

# Benefits

## Managed VTS service (Current/Traditional Setup)

- Will always be on a recent, working version of VTS
- Pearson now handles VTS upgrades as well as patching underlying OS. Typically, the VTS upgrades are a pain point
- VTS software stack replaced by much easier to manage client with significantly reduced maintenance requirements
- Any VTS upgrade issues are handled by Pearson, including rollbacks

## Reduced hardware requirements

- VTS replaced by simpler CCT client
- Smaller memory footprint, lower storage requirement. If using a virtualized environment the storage requirements will be reduced

# Introducing “Client Proctored” Testing

*Also known as “Proctored Anywhere”*

*Allows for flexible test center setup*

*Reduces frequency of software updates*

# Client Proctored Requirements

Wired Internet preferred (wireless is possible, but not preferred)

Windows 10 OS or above

Latest versions of Edge, Chrome, Firefox or Safari,  
*plus 2 versions back*

Broadband internet 40Mbps down/up

# Not Supported by the Client Proctored Solution

Touchscreen laptops, tablets, smartphones, chromebooks

Operating Systems below Windows 10

Virtual environments

Linux/Unix based OS

Dial Up Internet or hotspots

# ATLO Learning Management System Course Structure

The screenshot displays the ATLO Distance Learning System interface. The top navigation bar includes the ATLO logo, the text "Distance Learning System", a notification bell, and the user "Admin User". The left sidebar contains a menu with the following items: "Certified Professional Food Manager Study Guide & Practice Test", "Participants", "Competencies", "Grades", "General", "Certified Professional Food Manager Study Guide", "ServSafe Food Manager Crash Courses", "ServSafe Food Manager Video Series", "ServSafe Food Manager Practice Test", "Home", "Dashboard", "Calendar", "Private files", and "My courses". The main content area is titled "Certified Professional Food Manager Study Guide & Practice Test" and includes a breadcrumb trail: "Home / My courses / Certified Professional Food Manager Study Guide & Practice Test". Below the title, there is a section for "Ask a question here" and a "Your progress" indicator. The course structure is organized into three main sections: "Certified Professional Food Manager Study Guide", "ServSafe Food Manager Crash Courses", and "ServSafe Food Manager Video Series". Each section contains a list of items with checkboxes indicating progress.

Section	Item	Progress
Certified Professional Food Manager Study Guide	ServSafe Food Manager Study Guide 1	<input type="checkbox"/>
	ServSafe Food Manager Study Guide 2	<input type="checkbox"/>
	ServSafe Food Manager Extensive Study Guide	<input checked="" type="checkbox"/>

# THE AZTEC DIFFERENCE

Tapping into Untapped Human Potential

Specifically Built For Adult Learners By Adult Educators

## World Class Education Technology

Our learning system is available in every platform.

## Portfolio of Learning

Best-in-class curricula for adult students at all learning levels through digital, eBooks, and print modalities.

## Superior Content

Our academic content is specifically designed for adult learners.

## Partnerships

Our exclusive partnerships allow us to innovate and design better solutions.

## Hands on Support

Dedicated team focused on year-round assistance.

# WORLD CLASS CORRECTIONAL EDUCATION TECHNOLOGY

The Most Trusted Name in Corrections

## Designed For Corrections

Platform and user experience designed for adult education in an easy to access and navigate manner.

## Offline LAN Platform

Secure LAN platform provides an offline solution to programs requiring an alternative solution.

## Secure Online Platform

Our carefully planned learning system focuses on providing adult learners rich content at every step without any external links.

# PORTFOLIO OF LEARNING

Singularly Focused on Success

Aztec Portfolio Designed to Meet the Needs of the Learner in Level, Modality and Language.

## Adult Basic Education

Content focused on 0.0 through 8.9 GLE.

## HSE Prep

Content focused high school equivalency preparation aligned to all assessments.

## Post-Secondary Prep

Content focused on college entrance and preparation success.

## Employability Reentry & Soft Skills

Content focused on providing content training in a variety of employability, life, soft and career skills.

Resources available in English and Spanish

## Interactive Learning

# GED FLASH™ FOR ORGANIZATIONS

Official Practice Tool

**GED Flash™**  
FOR ORGANIZATIONS

## More Practice. Higher Pass Rates.

The official practice tool built in partnership with the GED® Testing Service to help students pass the GED® test by providing thousands of completely aligned and vetted questions with immediate feedback.

# STUDENT ACCESS

Practice Preparation Aligned to the Test

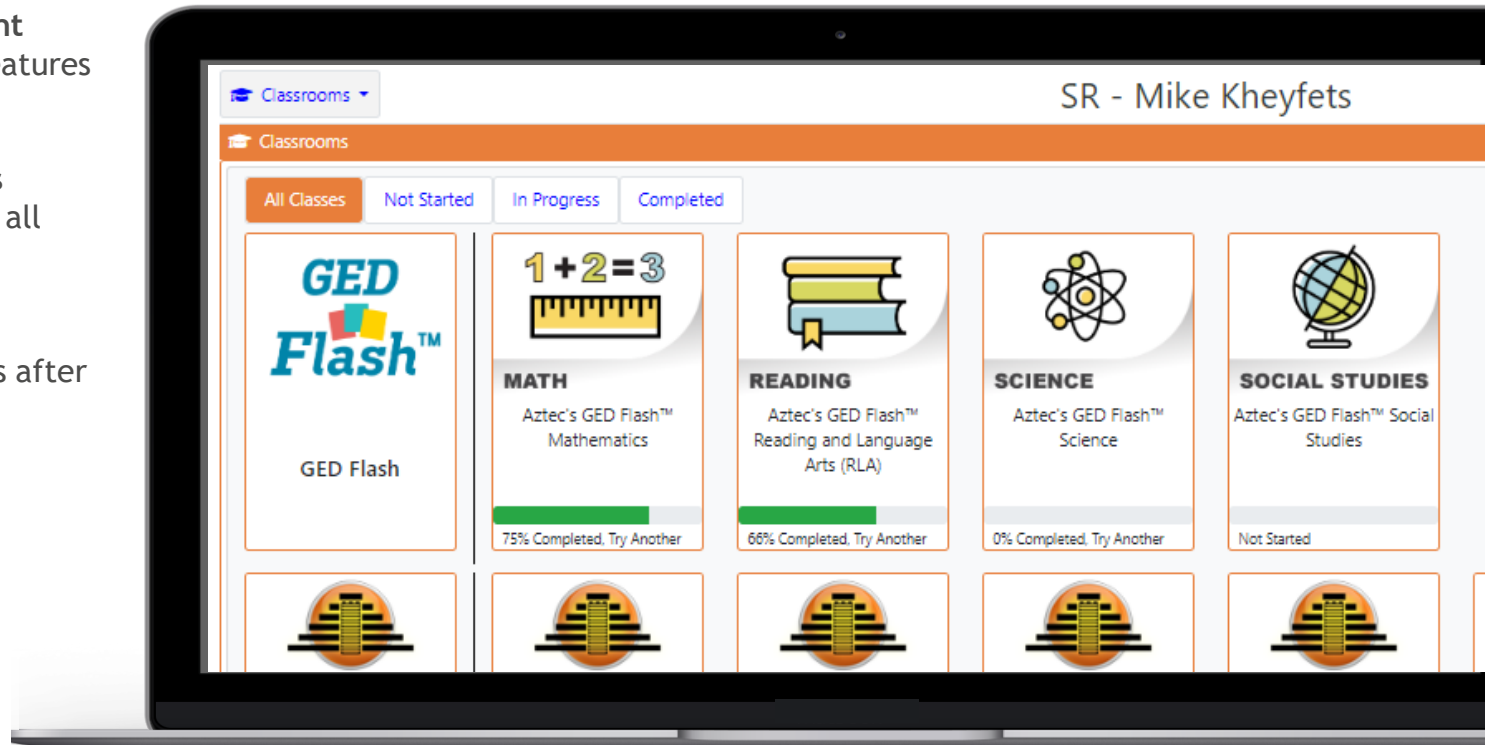

**Aligned To GED® Blueprint**  
Similar experience and features to the pre-test.

**Questions In All Subjects**  
1000s of questions across all four subjects.

**Immediate Feedback**  
Step-by-step explanations after each question.

**Easy To Use & Assign**  
Provide support in each subject.

# HIGHER LIKELIHOOD OF PASSING

GED® Data Shows Increased Performance

## Did You Know?

The average non-passing  
GED® score nationwide is  
a 141?

Students who practiced frequently with GED  
Flash™ scored on average 4 points higher on  
their GED® test versus those who rarely used it.

# MORE CONFIDENCE

GED® Data Shows Increased Performance

Users feel more confident about taking the GED® test after practicing on GED Flash™.

## GED PLAY™

On Demand Video Learning

### On Demand Video. On Demand Learning

The only on demand video learning program developed by GED Testing Service, Kaplan and Aztec Software to provide targeted video learning support across key GED® measured skills.

# GED PLAY™

## On Demand Video Learning

### The Perfect Reinforcement Supplement

GED™ Play was developed from our experience with GED Flash and the need for quick remediation.

#### Versatile Use

Can be used as **direct instruction and distance learning** supplement & reinforcement tool.

#### Alignment to GED Flash and GED® Test

Questions are aligned to and cover the key skills from the test. Also **aligned to GED Flash allowing seamless remediation of specific sections.**

#### Performance Insight

Gain insight on **students' performance and reportable information.**

**GED PLAY**  
On-demand video learning  
by the experts

Introducing GED Play — an instructional video program designed by Kaplan experts to enhance student performance on key GED measured skills. It's the perfect classroom supplement to keep students engaged in their GED prep.

- Comprehensive Content**  
Hours of video instruction covering all four GED test subjects.
- Targeted Curriculum**  
Concepts align directly with the skills being evaluated on the GED test.
- Top-Rated Instructors**  
Pre-recorded videos featuring experts at Kaplan.
- Easy to Digest**  
Short, bite-sized lessons make sure students do not feel overwhelmed.
