# GED Analytics in a Nutshell

# High Five Plus One: Most Commonly Used Reports

Testers,  
completers, and  
passers

State  
pass rate

Subject-specific  
pass rates

Tests taken  
by month

Top 10 volume  
test centers

Student  
demographics

**How do you use GED Analytics?**

# Helpful Tips

- State administrators authorize access (by notifying GEDTS TechOps team)
- *Frequently asked questions (FAQs) and a User Guide* are available in the top left of each tab. A wealth of information here!!
- When in doubt, check the filters
- Need training or refreshers? Ask us!
- Use TechOps: Send ideas or ask for support

# GED Analytics and GED Analytics Lite

- GED Analytics and GED Analytics Lite have *the same dashboards*
- GED Analytics users can see *aggregate counts and student details*
- GED Analytics Lite users see *aggregate counts, but not student details*

# Using the Test Center Locator

- Don't filter by state on "My State." Leave as "All."
- When searching for a specific test center use the "Test Center ID" filter rather than searching by test center name.
- Odd and invalid test center codes
