# The National Situation

- Availability of in-person GED<sup>®</sup> testing reduced significantly during the pandemic due to state shutdowns resulting in test center closures.
- Many individuals are wary of an in-person testing due to health concerns.
- People need a good option to test in order to take the next steps in life, i.e. enroll in college, find a job, change jobs, join the military, etc.

## Online Proctored (OP) GED® Test: The Basics

- Test-takers can take the GED test from the comfort of their home or other location that meets the criteria
- What is it? The GED test is delivered online and is continually monitored by a trained proctor and artificial intelligence
- Who is administering the test? GED Testing Service is contracting with OnVUE (part of Pearson VUE) to deliver the Online Proctored GED exams.

• <u>We are not moving away from the traditional in-person test</u> center model.

## **Online Proctored Testing Numbers**

- The OP GED Test started in late May. To date more than 37,000 individuals have taken OP GED test and over 95,000 total OP tests delivered.
- Thus far in 2021, 35% of the GED tests delivered nationally have been via OP test delivery.
- OP test-takers are passing each subject test rates higher than in-person test-takers

# **Online Proctored Testing Benefits**

- Appointments are available 24/7
- Test-takers can cancel or reschedule their appointment up to 15 minutes before their scheduled appointment time
- Test from the comfort of home, or other location that meets the OP testing criteria. This creates fewer transportation issues for many learners.
- Mix and match scores from in-person tests and OP tests means more total opportunities in each subject area if needed.
  The forms for O.P. and CBT are different, but equal content and rigor
- GED test vouchers currently work in the same manner, whether you are testing in-person at a test center or via OP

# Taking an OP GED Test: How it Works

- Students register and schedule their OP test via their ged.com account
- Requires a laptop or desktop computer with a camera/microphone and stable internet connection.
- Must be in an enclosed room with a door than can be shut, quiet environment, no other individuals in the room
- Students must complete a system check at the time of their appointment to ensure their system will support delivery of an OP exam.

https://ged.com/educators\_admins/test\_admin/

# Online Proctored GED Test Pilot Key Information

- · Resize or move the whiteboard around your screen

#### Opening and closing the whiteboard

During an OnVUE testing session, you can open and close the whiteboard as many times as you wish.

Any work that you enter will remain available, even if the whiteboard is closed. When it's reopened, you can start where you left off.

# Learn More: How It Works

### **How It Works**

Perform a system test to make sure your computer, webcam and internet connection meet the requirements for testing online.

Schedule your online test within 60 days of scoring 'green' on a GED Ready practice test.

Log in to GED.com 30 minutes before your test appointment to launch your test.

Follow the on-screen steps to check-in for your test including verifying your system, I.D. and workspace.

Take your test while an online proctor monitors you just like they do at a test center.

#### **Before Test Day**

#### **Run a System Test**

It's important to do a system test on your computer **before** test day to make sure your computer meets the minimum requirements for online testing. If you wait until the time of your exam to do the system test and something goes wrong, you won't be able to test and will lose your payment.

#### To do the system test, you will:

- · Download and install the OnVUE software
- · Follow each step to check your microphone, webcam and internet speed
- Take photos of yourself, your government-issued ID and your workspace using your webcam or mobile phone
