

Welcome to the GED® Tuesdays for Teachers Webinar

- The webinar will start at 3:30 p.m. (EDT), 2:30 p.m. (CDT).
- If you have a technical question, please type it into the question panel.
- When you log on, check your audio to make sure your headphones are working properly. If you use your phone to call in, be sure to enter the appropriate codes.
- As you enter the webinar, your audio will be muted to eliminate background noise. We will unmute participants later in the session.
- You will not hear anything until 3:30 p.m. when the webinar goes live, so please don't think that anything is wrong.
- Thank you for joining us today.

1

Working at a Distance – Helping Students Continue Their Progress Toward the GED Test During the Time of Social Distancing

A Tuesdays for Teachers Webinar
by the GED Testing Service®

2

Welcome

Vicki Greene, President and
CEO of GED Testing Service

Debi Faucette, Senior
Director

Susan Pittman,
Education Consultant

3

3

In this session, we will...

- Discuss the testing realities and challenges
- Discuss fears and concerns of adults during the pandemic
- Review online resources that can be used to help students stay engaged in learning
- Discuss options for setting up distance learning activities for students
- Explore GEDTS resources that can be used in the classroom

4

4

5

6

What Can You Do?

Remember to take care of yourself.
You can't pour from an empty cup.

7

Take Care of Yourself!

Be Aware

Support Yourself

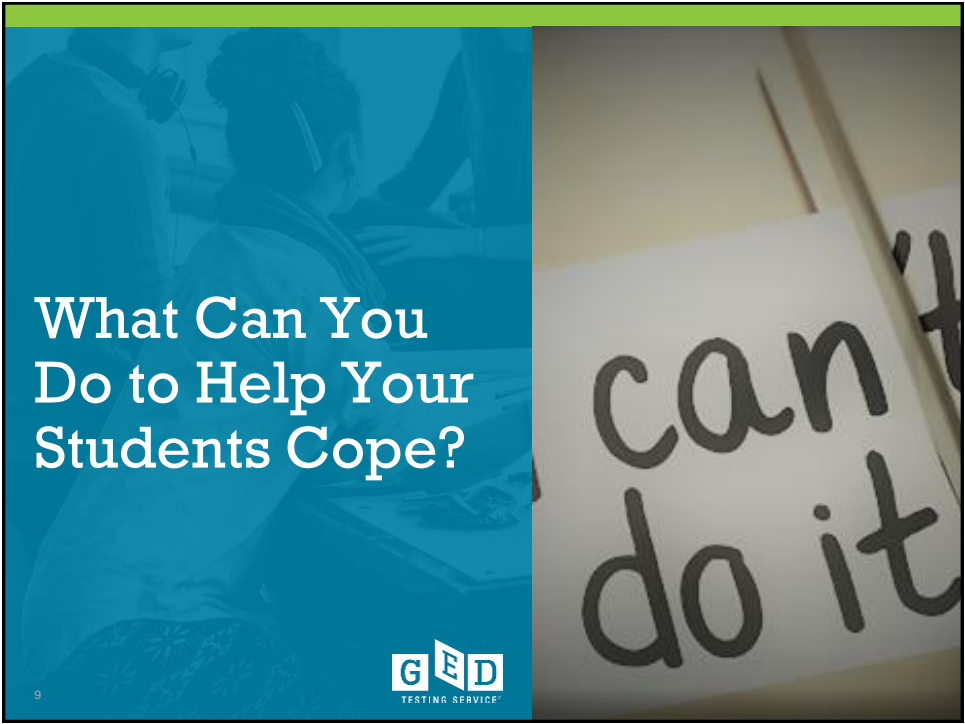

Do Something Different

8

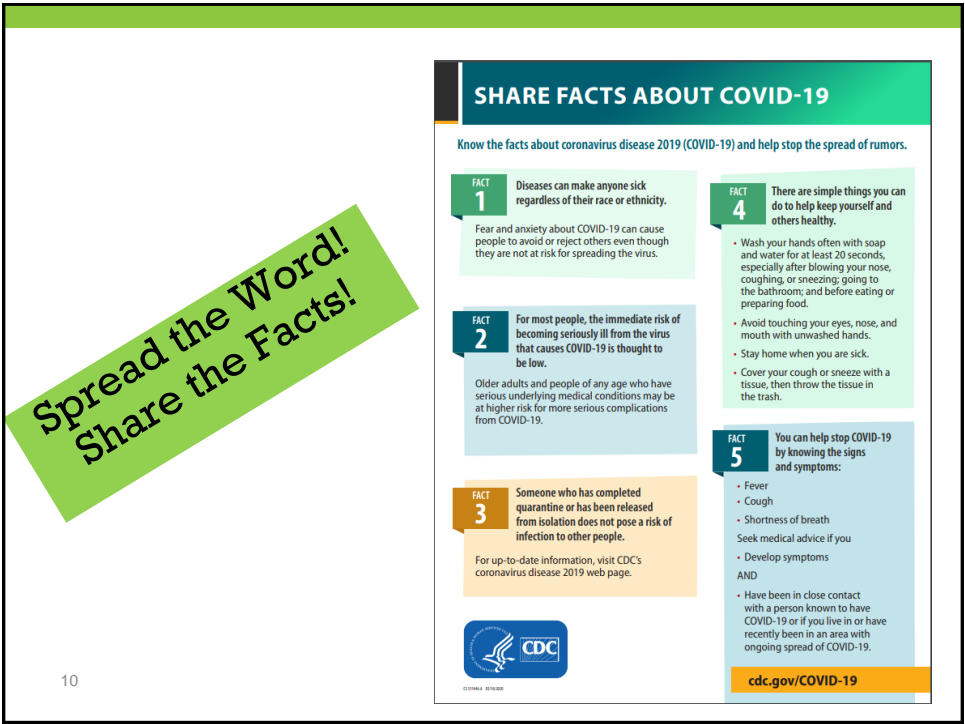

What Can You Do to Help Your Students Cope?

9

9

Spread the Word! Share the Facts!

SHARE FACTS ABOUT COVID-19

Know the facts about coronavirus disease 2019 (COVID-19) and help stop the spread of rumors.

FACT 1 Diseases can make anyone sick regardless of their race or ethnicity.

Fear and anxiety about COVID-19 can cause people to avoid or reject others even though they are not at risk for spreading the virus.

FACT 2 For most people, the immediate risk of becoming seriously ill from the virus that causes COVID-19 is thought to be low.

Older adults and people of any age who have serious underlying medical conditions may be at higher risk for more serious complications from COVID-19.

FACT 3 Someone who has completed quarantine or has been released from isolation does not pose a risk of infection to other people.

For up-to-date information, visit CDC's coronavirus disease 2019 web page.

FACT 4 There are simple things you can do to help keep yourself and others healthy.

- Wash your hands often with soap and water for at least 20 seconds, especially after blowing your nose, coughing, or sneezing; going to the bathroom; and before eating or preparing food.
- Avoid touching your eyes, nose, and mouth with unwashed hands.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.

FACT 5 You can help stop COVID-19 by knowing the signs and symptoms:

- Fever
- Cough
- Shortness of breath

Seek medical advice if you

- Develop symptoms

AND

- Have been in close contact with a person known to have COVID-19 or if you live in or have recently been in an area with ongoing spread of COVID-19.

[cdc.gov/COVID-19](https://www.cdc.gov/COVID-19)

10

10

Managing Time

- Keep a To-Do List
- Set Personal Goals
- Prioritize
- Manage Distractions
- Avoid Procrastination
- Focus on What You Can Reasonably Do
- Take Breaks
- Schedule the Important Things During Your Peak Time

Adapted from MindTools
at <https://www.mindtools.com/pages/article/newstools/time-management-mistakes.htm>

11

11

Provide Clarity

- Be clear in what will be expected of students
- Provide students with a checklist
- Brainstorm ways students can be successful in distance learning (based on their individual circumstances)
- Explain options
- Discuss options – smartphone, table, or laptop access

12

12

From the Field:

Kentucky Skills U College and Career Prep

FRIENDSHIP IS

...sharing
the last piece
of chocolate.

13

13

Kentucky Skills U College and Career Prep

Supporting Local Programs

- Provide ongoing communications
- Build, expand, and support a Google Classroom for KYSkills U educators focuses on Distance Learning
- Conduct Zoom meetings for administrators and teachers
- Provide information on instructional resources (tried and tested)
- Provide professional learning on how to use distance learning tools and resources
- Offer support throughout the state

14

14

15

Consider Setting Up a *Remind* Account

- A free Remind account lets you create up to 10 classes with up to 150 people each.
- Two-way messaging lets you communicate directly with students and families to answer questions, coordinate logistics, and handle individual situations.
- Along with updates, you can use Remind to share documents like guidelines, response plans, and maps with your students.
- If you use Google Drive, Google Classroom, or Microsoft OneDrive, you can connect them to Remind to access your files from the composer.

The image shows two smartphone screens side-by-side. The left screen displays the 'Classes' section of the Remind app, with a list of classes including 'Chemistry 101', 'Chemistry AP', 'Professional Development', 'Varsity Soccer', and 'Weekly Quotes'. There are buttons to 'Create a class' and 'Join a class'. The right screen shows a specific class, 'Chemistry 101', with a list of '2 scheduled announcements'. The announcements include reminders about lab books, a quiz, and a take-home quiz.

16

Remember Facebook is More than Just Cute Kitten/Puppy Videos

- Set up a Facebook Account for Your Class
- Create groups and schedule events
- Post classwork
- Make announcements
- Stream video through Facebook Live

WARNING!
Ask students to put you on limited access to their pages. Unless, you want to see the pics of their latest gathering.

Relationships Between the High Impact Indicators and Other Indicators

The High Impact Indicators are a set of key skills assessed on the GED® test that, if emphasized in instruction, can help instructors make a significant impact on student skills and performance. This document shows the relationship between the High Impact Indicators and other indicators assessed on the GED® test. Adult educators can use this resource to create instructional plans that address the maximum number of skills in the limited time they have available with students. Providing instruction in a single High Impact Indicator area can help students broaden and deepen their skills, enabling them to apply those skills in multiple ways and in a variety of contexts across all of the content areas covered by the GED® test.

Note: High Impact Indicators appear in BOLD type.

Reasoning Through Language Arts – High Impact Indicators

High Impact Indicator	Related Indicators from Other Content Areas
RLA	Social Studies
R.3.1 Order sequences of events in texts. Primarily measured with literary texts.	SSP.3.a Identify the chronological structure of a historical narrative and sequence steps in a process. SSP.3.b Analyze in detail how events, processes, and ideas develop and interact in a written document, determine whether earlier events caused later ones or simply preceded them. SSP.3.c Analyze cause-and-effect relationships and multiple causation, including action by individuals, natural and societal processes, and the influence of ideas. SSP.3.d Compare differing sets of ideas related to political, historical, economic, geographic, or societal contexts; evaluate the assumptions and implications inherent in differing positions.
	Science
	SP.3.b Reason from data or evidence to a conclusion SP.3.c Make a prediction based upon data or evidence
	Mathematical Reasoning
	MP.1.a Search for and recognize entry points for solving a problem. MP.1.b Plan a solution pathway or outline a line of reasoning. MP.1.d Recognize and identify missing information that is required to solve a problem. MP.1.e Select the appropriate mathematical techniques to use in solving a problem or a line of reasoning. MP.2.c Recognize the important and salient attributes of a problem. MP.3.a Build steps of a line of reasoning or solution pathway, based on previous step or given. MP.3.b Complete the lines of reasoning of others. MP.3.c Improve or correct a flawed line of reasoning.

EQUATIONS: LEARN

An *inequality* is very similar to an equation, but the answers form a range of numbers that could work to make the equation true.

For example, the inequality $x > 4$ would be true for all x values which are larger than 4, such as 4.1, 5, 10000, and so on.

Solving an inequality is just like solving an equation, except there is one extra rule to remember: if you multiply or divide by a negative number, switch the direction of the inequality.

Here is an example that shows how inequalities can be solved just like equations.

$$\begin{array}{r} 8x - 2 > 14 \\ + 2 \quad + 2 \\ \hline 8x > 16 \\ - 8 \quad - 8 \\ \hline x > 2 \end{array}$$

And here is an example regarding the extra rule about switching the direction of the inequality when you multiply/divide by a negative.

$$\begin{array}{r} -8x - 2 > 14 \\ + 2 \quad + 2 \\ \hline -8x > 16 \\ -(-8) \quad -(-8) \\ \hline x < 2 \end{array}$$

EQUATIONS: PRACTICE

Solve for x.

Start 00:29

Note: click the inequality button to toggle the direction of the inequality.

If $-4x + 9 < 25$,

then x

then x

0 1 2 3 4 5 6 7 8 9

\$ % & * ^ / Clear Close

Correct!

You have 1 correct and 0 incorrect.

ECUACIONES: LEARN

Una desigualdad es muy similar a una ecuación, pero las respuestas forman un rango de números que podrían funcionar para hacer verdadera la ecuación.

Por ejemplo, la desigualdad $x > 4$ sería cierto para todos los valores x que son mayores que 4, tales como 4.1, 5, 10 000, y así sucesivamente.

Resolver una desigualdad es igual que la solución de una ecuación, excepto que hay una regla adicional para recordar: si se multiplica o divide por un número negativo, cambia la dirección de la desigualdad.

He aquí un ejemplo que muestra cómo las desigualdades se pueden resolver como ecuaciones.

$$\begin{array}{rcl} 8X - 2 & > & 14 \\ +2 & +2 & \\ \hline 8X & > & 16 \\ -8 & -8 & \\ \hline X & > & 2 \end{array}$$

Y aquí es un ejemplo en cuanto a la regla adicional acerca de cambiar la dirección de la desigualdad cuando se multiplica / divide por un negativo.

$$\begin{array}{rcl} -8 X - 2 & > & 14 \\ +2 & +2 & \\ \hline -8 X & > & 16 \\ -(-8) & -(-8) & \\ \hline X & < & 2 \end{array}$$

ECUACIONES: PRACTICA

Solución para x .

comienzo 00:00

Nota: haga clic en el botón de la desigualdad para alternar la dirección de la desigualdad.

Si ,

entonces x

Presione el botón de inicio para comenzar

GEDTS Outcome Study of Flash Users

- Increased Pass Rates - 4-point increase on GED math scores
- Increased Readiness – Over half of students increased GED Ready levels
- Increased Confidence – 79% of students felt more prepared for the test
- Increased Learning – students increased number of correct answers over time

Key Features

- Exclusive Practice Tool – Only place to get access to thousands of practice questions
- Immediate Feedback – Learning tool provides feedback to every question
- 24/7 Access – Students can practice anywhere, anytime
- Reporting – Educators receive rich and actionable reporting data

39

39

Mastering GED Test Concepts

GED Flash provides ongoing practice and detailed explanations to help students master the exact concepts on the GED test.

Instant feedback with step-by-step explanations provide additional teaching opportunity and reinforcement

1,000's of practice questions across the four GED test subjects

Questions are aligned to and cover the exact skills from the test

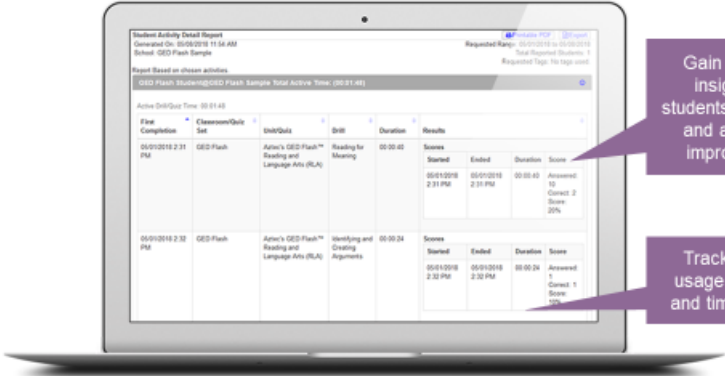

40

Detailed Reporting and Insights

A robust dashboard provides valuable insights about each student's performance and areas for improvement.

Gain valuable insights on students' strengths and areas for improvement

Track student usage progress and time-on-task

41

GED Programs Expressed a Need For:

- Engaging distance learning tools
- High quality content to supplement existing instruction
- Ability to track student time on task

Correctional Programs Have Additional Needs:

- Content that can be served offline
- Instruction for students in restricted areas
- Teacher support given widely varying levels of students

42

On-demand video learning

To address these needs, we've launched an instructional video program designed by Kaplan and delivered Aztec Software to enhance student performance on key GED measured skills.

43

43

Extensive Content

Hours of video instruction covering all four GED test subjects.

Targeted Lessons

Concepts align directly with the skills being evaluated on the GED test.

Top-Rated Instructors

Pre-recorded videos featuring Kaplan experts.

Easy to Digest

Short lessons focus on one skill at a time.

Assignments and Quizzes

Introduction and Basic Properties of Inequalities

Introduction and Basic Properties of Inequalities

An **inequality** is a statement that one mathematical expression is greater or less than another expression.

Properties of Inequality:

For real numbers a , b , and c ,

(1) If $a < b$, then $a + c < b + c$.

(2) If $a < b$ and if $c > 0$, then $ac < bc$.

(3) If $a < b$ and if $c < 0$, then $ac > bc$.

MORE VIDEOS

in this video we're gonna talk about inequalities and we're just gonna do an introduction

0:04 / 3:45

Properties of Inequalities

Quiz

If you multiply or divide an inequality by a negative number, you must reverse the inequality sign. 10 points

☐ True

☐ False

In the following inequality, would you need to reverse the inequality sign to correctly solve the problem? $-3n > 12$ 10 points

Choose

What is the answer to the following inequality? $4 + x < 12$ 10 points

☐ $x > 8$

☐ $x = 8$

☐ $x < 8$

☐ none of the above
