Navigating a Student’s Journey through GED.com!

A Tuesdays for Teachers Webinar by the GED Testing Service®
Just So You Know…
In this session, we will...

- Go online to explore the student journey on GED.com, including registration, preparation, testing process, and beyond
- Provide updates and dig deeper into specific issues about the Online Proctored (O.P.) test
- Explore Spanish resources that teachers and students can use as they prepare for the GED test
Time to Explore the Student Journey

Students can now take the GED test online. Learn more about eligibility and how it works here.

Welcome to the home of the GED® test, your official online resource to prepare for and earn your high school equivalency diploma.
Test Appointment Confirmation

It's time to test your system
Order #: 0057-5542-7170

Your appointment is confirmed! An order confirmation containing important exam day information has been sent to:

What's next?

RUN A SYSTEM TEST

We need to verify that the computer and internet connection you plan to use on exam day meet the minimum requirements for online testing. It'll just take 5 minutes to run:

- Equipment checks
- Exam simulation
Test-Taker Experience Video

If you would like to watch a brief video that provides a demonstration of the student experience at a test center, and the student experience taking an online proctored test, please go to the link below and scroll to the bottom of the page to find the two videos.

https://home.pearsonvue.com/Test-takers/Resources.aspx
Test-Taker Experience Video

• The palm vein scan shown in the test center video is not part of the check-in process for GED® test-takers.

Video mentions 2 forms of ID may be required, however only one form of I.D. is required for GED testers unless:

• State specific rule requires 2 forms
• I.D. doesn’t contain home address and state has a residency policy
• Other examples: primary I.D. doesn’t contain a signature in which case a secondary I.D. will be required
Test Center Experience

GED Specific Noteboards:
• Spiral bound noteboards
• Math Formula and Calculator Reference Sheet (available in Spanish)
• RLA Tips Sheet (available in Spanish)

If test centers do not have these GEDTS specific noteboards, they can order them at no cost through Pearson VUE’s Service Direct system.

Rules Reminder

Before you begin your GED online test, we want to remind you of a few rules.
Tips for Preparing Your Students

• Make your students aware of the OP testing option

• Discuss the differences of OP testing vs in-person

• Educators can help ensure students who plan to test via OP are prepared by having a GED Ready score of 145 or higher

• Making students aware of OP test resources such as the virtual whiteboard tool and virtual calculator tutorial video both of which can be accessed via the student’s ged.com account.
Helping Your Students Have a Successful OP Testing Experience

- Encourage those who will test via OP to start the check-in process for their OP testing appointment 30 minutes before their scheduled appointment time.

- Once a student’s test begins they cannot get up and leave their seat or leave the room. No unscheduled breaks are allowed.

- Students under 18 will need a parent or guardian to appear on screen during the check-in process.

- No one else can be in the room or enter the room while the test is ongoing.

- Students should keep their eyes focused on the screen and try to avoid looking off-screen as this is seen as suspicious.
Helping Your Students Have a Successful OP Testing Experience

- Students are prohibited from audibly reading the test questions aloud

- No cell phones allowed once testing begins

- No pen/pencil or paper allowed

- No handheld calculator

- A glass of water is allowed, but no food or other drinks

SUPERFICIE: APRENDA

Superficie es el área combinada de todas las superficies bidimensionales de una forma. Al igual que el área normal, las unidades son los cuadrados de las unidades de longitud (es decir, si los lados de una figura se miden en metros, entonces el área de la forma se mide en metros cuadrados).

Un cubo tiene seis caras idénticas (superficies planas), así para encontrar el área de la superficie de un cubo, encontrar el área de una de esas caras y se multiplica por 6. Cada cara está en la forma de un cuadrado, por lo que encontrar el área de uno cara es como sencillo como multiplicar las multiplicado por sí mismo una longitud de lado.

Ejemplo, encontrar el área de la superficie de un cubo con una longitud de lado de 5 m.

En primer lugar, nos encontramos con el área de la cara 1: $5^2 = 25 \text{ m}^2$.
Luego se multiplica por las 6 caras idénticas: $25 \times 6 = 150 \text{ m}^2$

SUPERFICIE: PRÁCTICA

¿Cuál es el área de superficie de un cubo cuya longitud lateral es $\text{cm}$?

Developing Writing Skills in Spanish provides intermediate and advanced level students with the necessary skills to become competent and confident writers in the Spanish language.

With a focus on writing as a craft, Developing Writing Skills in Spanish offers a rich selection of original materials including narrative texts, expository essays, opinion pieces and newspaper articles.

Each chapter covers a specific kind of writing and is designed to help tackle the material in small units. The book aids students in crafting clear, coherent and cohesive manuscripts by means of guided practice and step-by-step activities.

Key features:

- Guidance on how to structure a variety of texts: narrative, descriptive, expository, persuasive, academic, journalistic, legal and scientific.
- Sequenced exercises on style, writing conventions, word choice, syntax and grammar.
- Reference lists and tables with specialized vocabulary, transition words and other useful expressions.
- Strategies and tips for planning manuscripts, brainstorming ideas, vocabulary enrichment, editing and proofreading.
- Includes original samples, as well as fragments from newspapers, well-known literary works and essays by notable Hispanic authors and journalists.
- Website with additional activities to reinforce the content of each chapter and a teacher's guide with valuable support materials.

Designed as a classroom text, self-study material or simply as a resource on writing, Developing Writing Skills in Spanish is the ideal supplement for all intermediate to advanced students of Spanish.
