ABOUT PALS

"I believe in changing the world through education. Our institution has been helping young people achieve their dreams for a long time through our GED International Program and expert tutoring. This will continue long into the future. We are proud of our alternative pathway to higher education and how many students we have helped access universities and colleges in Singapore, Switzerland, the UK, the USA and in Thailand."

Dr. Suttada Ruenagsuttapha

"We believe in pushing kids to reach their academic potential. This has motivated us for the past decade to work tirelessly for our students. This way can we make a difference and raise educational standards, enabling more young people to attend quality universities and colleges.
